## Township Budget Set at \$61,505, a 33 Pct. Increase Over 1955

### All Funds Upped Because of Increased Costs in Operation

The township budget for next year jumped from \$44,775 to \$61,505, an increase of approximately 33 percent as the town board decided to lift its business out of the red and to operate in an efficient manner.

"We've had to scrape the bottom of the barrel and issue anticipation warrants at interest too long, and now we hope to have a little balance at the end of each year," said Supervisor Lloyd Murrie.

The poor fund was upped from \$20,300 to \$28,850, a difference of \$8,550, Clerk Llewellyn Van Patten, Jr., said. Increased hospital costs figured strongly in this increase.

The library fund was likewise increased from \$9,475 to \$10,775 because of increased costs.

The general town fund was elevated from \$15,000 to \$21,880, again as the result of increased cost of operation.

One of the plans of the board is to enforce health laws and the board will have the services of an attorney in doing so.

Supervisor Murrie's salary was increased from \$1,200 to \$2,500 which will remunerate him for increased time that is being devoted to the township's business. The township is increasing in size and while in normal times the \$16,730 increase in the budget would seem like a lot, much of it will be made up by increase tax income due to a 25 percent increase in valuation.

The town board comprises the supervisor, the clerk and the five justices of the peace. Ted C. Larson is the board's attorney.

## A.T.H.S. Choruses Band to Compete at Gurnee on Saturday

Antioch High school will send 114 students to Warren Township High school at Gurnee, Saturday morning to participate in the district band and chorus contest.

It will be the largest number of any of the eight schools in the contest. Competing are Harvard, Grayslake, Woodstock, Wauconda, Antioch, Richmond, Wheaton, and Huntley. Those that receive superior rating will go to the state contest in DeKalb on May 4 and 5.

The mixed chorus will appear at 9:20 a. m. and the girls' chorus at 10:10 a. m. The band will play at 1 p. m.

Louis Chenette is the Antioch director.

Choral judges will be Marvin Genuchi, Libertyville; Homer Gerretson, Urbana; Thala Rush, Lake Villa; and Samuel Magee, New Trier.

Band judges will be Otto Graham, Waukegan; Lt. Col. S. E. Mears, Whitewater, Wis.; Frank Laurie, North Chicago; and Everette Kessinger, Urbana.

## Vandals Smash Glass At J. A. Fitzgerald Home L. Catherine

A. J. Fitzgerald, 23 Jeanette Ave., Warriners' Subdivision, Lake Catherine, said he will give \$100 to the Antioch Rescue squad fund for the arrest and conviction of the person or persons who broke windows and frames at his summer home.

Fitzgerald arrived at his summer home at noon Tuesday from his winter home at 2484 W. Estes Ave., Chicago and found six large panes of glass broken in the sun porch.

Rocks the size of potatoes were thrown through two of the 30 x 30 inch glasses, and the vandals evidently used a 2 x 4 timber to smash the others because the aluminum frames were bent.

Fitzgerald has been coming to Lake Catherine for 31 years and this is the first time his home has been molested. Four years ago every pane of glass was knocked out of a house south of the Fitzgerald place.

The vandalism was reported to sheriff's police.

**D.S.T. on April 29**  
With each passing day the sun travels a little farther north adding to the daylight hours, all of which reminded the village board Tuesday night that it is time again to provide legally for daylight savings time. It will go into effect the last Sunday in April.

## Twelve Men to Carry Banner for Antioch in Track Through Season

An even dozen of candidates will carry the banner for Antioch Township High School in track this year. Without much practice they will be matched against Wauconda, Grayslake, and Palatine in a four-way meet at Palatine Monday.

Coach Paul Kessenich will depend on Roger Plechaty a junior for the high hurdles, high jump and to participate in the relay.

Jim Denton, a sophomore, will enter the 100 and 220-yard dashes and relay and Eugene Prange, a senior will be the third of his top men in running the mile and hurling the discus.

Other members of the team will be Dave Mitchell, sophomore, shot put and discus; Norman Wojcinski, a junior, who will enter the sprints and relay; Chris Davis, a freshman, Bob Ecklund, Charles Hucker, and Frank Sebesta, sophomores, all in the weights; Tom Milowski, sophomore, 220 and 100-yard dash; Bill Hendrickson and Dan Walters, juniors, distant runs.

## Louis L. Ralen, 16, A.T.H.S. Sophomore, Killed in Car Crash

### Only Son of Hickory Corner Innkeeper Is Victim in Millburn Accident

Funeral services were held Saturday afternoon at the Congregational church in Millburn for Louis L. Ralen, 16, son of Mr. and Mrs. Louis B. Ralen, who was killed Thursday evening when his car crashed into the wreckage of two other cars on Rte. 45 in Millburn.

The accident occurred at 7:25 p.m. seconds after the southbound car of Mrs. Gloria Bailey, of Iron River Mich. skidded out of control during a blinding snow storm and swerved into the path of an approaching semi-trailer truck driven by Donald R. Conway of Crown Point, Ind.

Mrs. Bailey's four children, Betsy Ann, 10, Bonnie Lee, 12, David, 8, and Beverly, 6, were hurled from the car onto the highway by the impact.

Young Ralen, blocked by the wreckage of the passenger car and truck, had no opportunity to avoid the crash when he suddenly came upon it in the storm in his station wagon.

Fortunately he did not come from the direction which would have placed the children in the roadway in his path.

The children were taken by Lake Villa police to Victory Memorial hospital for treatment for cuts, bruises and other injuries.

Although Millburn is in the area served by the Antioch Rescue squad, Capt. Herman Holbeck said that the squad was not called and as the result it was a long time before the children were taken to the hospital.

Young Ralen was a sophomore in Antioch Township High School. His father operates the Old Hickory Inn at Rts. 173 and 45.

Louis L. Ralen was born in Chicago, January 4, 1940. The family moved to Morton Grove in 1950 and came to Antioch two years ago. The parents are the only survivors.

Burial was in Warren cemetery.

**Will Purchase Insurance**  
The village board will hold a special meeting on Tuesday, April 23 at which time bids will be opened for the purchase of bodily injury and property damage liability and physical damage insurance.

## Record Warm Weather and Tornado Threat Reach Antioch Area About The Same Time

A record high temperature that brought with it an alert for tornadoes gave Antioch and the rest of Lake county mingled pleasure and uneasiness Tuesday.

No tornado appeared here, but elsewhere throughout the United States tornadoes took the lives of 55 persons. The nearest one was in Berlin, Wis.

Warm weather made its descent on Antioch starting Sunday, and by Monday this area was basking in 80-degree temperature. This and the 79-degree maximum on Tuesday was the warmest for this time of year on record, it was said.

But the warm weather from the southwest brought with it storms, and twisters. A squall line passed through Lake county, bringing a driving rain to Ingleside, but giving Antioch only a sprinkle.

An alert to schools of the county was sent out at 2:18 p. m. Tuesday by Civil Defense Director Willy, Libertyville, and most schools were dismissed at once.

## Village Board Given Map to Purchase Land For Offstreet Parking

### C. of C. Provides Information of Ownership of Property

A decided step toward getting a new offstreet parking area was taken Tuesday evening when a map showing ownership of land at the rear of business houses on the east side of Main st. was presented to the village board by the Chamber of Commerce.

It will now be up to the board to purchase the land through sales tax money, build a road and provide the public parking space.

The map was presented to the trustees as the fourth of a series of matters brought to their attention by the Chamber of Commerce through its president, Joseph Patrovsky, Jr.

President Patrovsky first asked the board to consider the removal of parking meter fees for Saturday nights when only about 25 percent of the stores were open. This brought much discussion from the trustees who took no action on the proposal. The business men said that such a move would generate good will for the village from visitors.

A second proposal was that signs for poles furnished by the chamber and bearing greetings to persons entering Antioch on Main and Lake sts. be lighted and the cost be borne by the village. The trustees said this could call for special electrical wiring and would cost \$700 a month which they thought too steep. They did not object to painted signs if the State Highway Department does not.

**Suggest New Roadway**

The third proposal from the chamber was that the village purchase land from the high school on the east side of the Soo Line for a roadway paralleling the railroad to make an outlet to Rte. 173 from Sequoit Acres so that industry could be obtained.

Mayor J. M. McMillen said that this had been attempted but failed, but said that now that the school officials are considering placing a subway under the tracks from one parcel of school ground to another, they might consider lengthening the (Continued on page 5)

## Resort Owners Meet At Fox Lake Friday

A meeting called for Friday evening in the village hall at Fox Lake may result in an organization of resort owners of the Chain of Lakes area.

The meeting was called to decide on the nature of a release paper which would be signed by road rent acknowledging the receipt of equipment for a specified number of persons in compliance with federal regulations.

This would protect the boat owners should the renter take more persons in the boat without additional equipment and run afoul of the Coast Guard.

The resort owners will also discuss the control of speed boats that threaten persons in small boats and fishermen.

The organization will be sought as a means of combining cooperative efforts of the resort owners instead of practicing cutthroat competition.

## Race for Representative, State's Attorney, Coroner Attract Many Voters to Polls at Primary Tuesday

### Salaries at Antioch High School

Three members will be elected to the Antioch township high school board of education at a regular election Saturday, April 14. Seven candidates are campaigning for the three positions.

Interest in the campaign is intense and it seems in the public interest to inform the voters of the district to the fullest extent, that they may make an intelligent choice on April 14. Much talk by certain of the candidates and their backers concerning the low salaries being paid teachers at the school has been circulated.

A faction of the high school faculty has chosen to enter into the campaign, apparently in the hope that demands for higher pay will fall on more receptive ears after the election. The present board has been warned, in effect, to either accept recommendations of the group or be replaced by new members who will.

Following is a tabulation of salaries of those teachers who have received contracts for the coming year. Shown also are salaries for 53-54; 54-55; 55-56; and 56-57:

Teacher	A	B	C	D	E	F	G	H	I	J	K	L	M	N	O	P	Q
Degree	B.E.	B.S.	B.S.	B.S.	M.S.	B.S.	B.S.	B.S.	B.S.	B.S.	B.S.	M.S.	B.S.	B.S.	B.S.	M.A.	M.A.
53-54	\$4300	3800	3400	3650	4100	4100	—	3300	—	4200	—	5100	—	—	5200	4950	4400
54-55	\$4450	3950	3500	3800	4250	4250	—	3500	—	4350	—	5350	—	—	5300	5100	4550
55-56	\$4700	4150	4050	4125	4700	4500	4300	3750	3450	4450	4300	5550	4150	3500	5550	5350	4800
56-57	\$5100	4945	4500	4650	5250	5200	4725	4350	4000	5200	4850	5900	4450	3750	5550	5750	5600

The salaries listed above include extra compensation for duties other than teaching. Class sponsors, coaches, ticket managers, etc., are compensated for these duties.

Other factors to be considered to get a true picture are the fact that teachers serve for nine months of the year only, school is held about one hundred eighty days a year. An additional 6% of the salary figures is paid by the board into a teachers pension fund.

Teachers are allowed two week's sick leave annually at full pay, and an additional two weeks at one-half pay. Travel expenses are also allowed if teachers travel to teachers' meetings during the year.

A little arithmetic will show that the average of the salaries of the teachers listed above is \$4925 per year or about \$410.00 per month.

Antioch high school's salary schedule is in line with that of other schools of comparable size, according to Board President Fred Scott, who said, "Our salaries are neither the highest, nor the lowest in the area."

## Seven Candidates for Member of High School Board Remain in Race

Two of the nine candidates who filed petitions for member of the board of education at the Antioch Township High school withdrew their petitions before the deadline last Friday, March 30.

Petitions of Mrs. Clarence Olson and Mrs. Willis J. Filiatreault were withdrawn, leaving Walter Hills and Roman Vos, candidates for re-election; Elmer Rentner; Mrs. Richard Seyfarth, and Dr. Richard Carlucci, all of Antioch; and Carl M. Larson and John F. Romer, of Lake Villa, in the race for three seats on the board.

## Proclamation Cites Scott, Maplethorpe

A proclamation signed by J. W. McMillen, president of the village and approved Tuesday evening by the village trustees gives public recognition and appreciation to the fact that Walter I. Scott and Charles Maplethorpe, his assistant, received a citation and trophy from the State Department of Public Works and Buildings for their excellent maintenance of the Antioch public water and sewage system.

The proclamation is printed verbatim elsewhere in the Antioch News.

## G.O.P. Republican Club Incorporated

The Antioch-Lake Villa Township Republican Men's club has received its official papers of incorporation as a non profit group. Incorporators are Howard Gaston, Russell Holtz, and Elmer Wolff. Richard B. Seyfarth is the correspondent for the organization.

### Called for Grass Fire

The Antioch Fire Department extinguished a grass fire at Loon lake yesterday.

### To Attend N. C. A. Meeting

Principal Albert Dittman of the high school will attend the North Central Association convention at the Palmer House in Chicago on Tuesday. He has again been asked to serve on reviewing committee of the association. While the convention meets from Monday through Wednesday, he will attend the discussions and meetings for the one day.

James Titus, Negro story teller appeared in the assembly program at the high school today (Thursday) giving his interpretation of Green Pastures.

## Small Boat Swamped At Indian Point but 4 Youths Reach Land

Four Cook County young men managed to get to land after their boat overturned about noon Tuesday in Fox lake near Indian Point.

The four were Edward Siestka, 19, of 3230 S. 54 St., Cicero; Ed and Joe Stedron, aged 19 and 20, of Rte. 3, Case Ave., Hinsdale; and Jerry Radson, 19, of 2325 S. Oak Park, Berwyn.

The boys were fishing when a high wave swamped the boat. They clung to the boat until it drifted to shore at the late Charles Ackerman property.

The Antioch Rescue squad was called, sheriff's police said, but was not needed.

Siestka said he lost \$10 worth of fishing tackle. They saved their 16-foot boat which was powered by a 3 1/2 h. p. motor.

### Dr. Deering In Hines

Dr. David Deering, Victoria street, Antioch, was hospitalized Tuesday at Edward Hines Hospital, Maywood. He will stay at the hospital for an indeterminate time for observation. He and Mrs. Deering returned home Monday after a month's vacation in Florida and the southern states. While in Florida, they visited David, Jr., who is stationed at Pensacola Naval Air Base for flight training.

## Practice Game With Wilmot Tomorrow to Open Baseball Season for Antioch Township High

The baseball season for Antioch Township High School will get under way tomorrow in practice game at Fox River Park with Wilmot (Wis.) as the opponent.

Both teams have had little opportunity for outside practice and not too much is expected in the way of finesse.

Coach Larry Leon has six letter men to draw upon in building his team this year. Jerome Meyer as catcher, James Stonis at first base, Frank Walsh at second base, Sid Parker at center field, and Wayne Swanson as pitcher played on last year's team, and Earl Deppe, a transfer from Elva-Vernon is a letterman from the Bear camp who will fit in well at third base.

Lonnie Christensen will start at short stop, Bill Barnstable at left field, and Dick Storch at right field.

Substitutes who may see play are Charles Larson, second baseman; Don Schroeder, third baseman; Keith Gordon, Charles Behrendt, Art Prining and Frank Lombardo, outfielders. Ken Anderson will be a relief pitcher.

The conference season will start

## Wright Only Serious Threat to Stratton For Governor Office

### Precinct Candidates Listed

### Eisenhower Has Mild Opposition in Nomination for The Presidency

With races for representative, state's attorney and coroner claiming the greater interest, Antioch area voters will go to the polls Tuesday to choose their party candidates for the general election.

From a list of three, W. J. Murphy of Petite Lake, Hugo L. Schneider Jr., Lake Forest, and Robert Coulson of Waukegan, republicans will select two candidates for representative. Murphy is seeking his second term, while Schneider, county treasurer and Coulson, mayor of Waukegan, are seeking their first.

For this office Democrats must choose between Jack Bairstow, incumbent, John Lawrence Balen Jr., North Chicago, and Charles Lucas, Fox Lake as their lone candidate.

Republicans already are aware of the hot battle between Robert C. Nelson, incumbent, Thomas J. Moran and Walter W. Ullick for the state's attorney post.

Democrats will choose between Mark Drobniak and Philip W. Yager for their representative for the state's attorney candidacy. They have no opposition for the office of coroner.

The only other opposition for a county office on the Republican primary ticket is for coroner where Robert H. Babcox, incumbent, is opposed by John P. White, a former holder of the office.

On the state level Governor William G. Stratton has plenty of opposition on the Republican ticket, with Warren E. Wright considered his strongest opponent. Other candidates are Anthony A. Polley, Sidney McKee Ward, and Lar (America First) Daly.

Charles D. Carpentier, secretary of state, is opposed for re-election by Nicholas J. Bohling as the only other state contest on the Republican ticket.

Robert E. Wood, Donovan Y. Erickson, and Jim (Choo Choo) Balrickson (continued on page 5)

## Moran Makes Final Pledge Ere Election

In one of his last speeches before the primary, Tom Moran, candidate for state's attorney on the Republican ticket told Warren Township Republican women Tuesday evening that if elected he would:

Fight the mounting death toll on the highways by cooperating with the police in seeing that reckless and drunken drivers are given swift and sharp prosecution.

Give personal attention to the problems of abandonment and erring spouses, prosecute sex offenders, rape cases, and give close attention to teenage problems, assigning a special assistant to this work.

Give full time to the job.

## Economic Highlights

Senator Knowland recently made a talk on foreign policy which is of moment not only because of what it says, but because of his position in Congress. As minority leader, in which he succeeded the late Senator Taft, he has been highly effective in gaining approval of Administration programs—though he has, on occasion, found himself in opposition to some Administration thinking. It is significant that, when it was not known whether or not President Eisenhower would run again, Mr. Knowland said he might be a candidate for the nomination; after the President's announcement of availability he at once withdrew and pledged his support.

Mr. Knowland makes the point that "foreign policy is too important to be left to government alone. It is of concern to 165 million Americans." He lays stress on the tremendous gains that communism has made since early 1945. At that time, there were less than 200 million people behind the iron curtain; now there are 900 million—"and their totalitarian rulers are united in the common objective of making a communist world." In addition, governments representing nearly 500 million people have chosen a neutralist course, and have refused to join in an effective collective security system. In the Senator's view, "They can afford this luxury because others have undertaken the necessary burdens."

He is no enemy of the collective security idea. He finds it necessary in the present state of the world. But, clearly, he believes the faults and failures have been great. For example, during the Korean War only 17 of the then 60 UN members supplied armed forces to resist the aggression. This country supplied 90 per cent of those forces and 95 per cent of the other resources employed. And since World War II our grants and loans to other countries have totaled over \$52 billion.

Senator Knowland has no faith in the late soft-talk of Communist leaders. He cites a remark attributed to Khrushchev: "Anybody who takes our smile for withdrawal from the teachings of Karl Marx or Lenin is making a mistake." At Geneva and elsewhere these leaders have made it abundantly plain that they will not agree to free elections in the satellite countries, German unification on any but communist terms, an adequate weapons inspection system, or other concrete steps toward peaceful co-existence.

This brings the Senator to his point. He asks: "Can our economic system survive prolonged burdens of building a system of collective security and a system of neutralism at one and the same time? If the neutralists are to receive the benefits and have none of the responsibilities of those in the collective defense system, will not that act as an incentive plan to build up the fence sitters?"

There is no urging in this that we "re-make the

world in our political or economic image." Any country is entitled to the kind of government and economy it wants. But in Senator Knowland's view this country's resources are not unlimited, and we should thoroughly re-examine the policy providing billions in aid to nations which assume no obligations on their own part and which, in some cases, seem to be helping Soviet strategy along. To quote him again: "It is my personal belief that we would command more respect from our allies, from the neutrals and from our potential enemies if we insisted on a fair quid pro quo for agreements entered into. We should stress the point that an alliance is of little value unless the other party has as much obligation to come to our defense in case of attack as we have to go to theirs."

## Parents Are Delinquents

J. Edward Hoover, an authority on crime if ever there was one, has placed the blame for juvenile delinquency squarely on the parent.

He said: "The regrettable fact is that the irresponsible parents who neglect their duty continue to do so because they are not held responsible for their dereliction. . . . The startling crime conditions existing today reflect that in America the home is failing in its traditional function as the first and foremost classroom—a place of learning how to live as well as a place of living."

## Grass Roots Opinion

SANTA ROSA, N. M., NEWS: "Aesop pointed the moral: 'Beware lest you lose the substance by grasping the shadow.' Do we sometimes give away the good things we have for grandiose plans that are nothing more than shadows?"

CHISHOLM, MINN., TRIBUNE-HERALD: "Probably nine people out of 10 think that all telephones are owned by the Bell System. As a matter of fact, there are hundreds of small telephone companies. . . . The General Telephone Company, which has grown up in recent years, has approximately 2,500,000 telephones in service and employs more than 40,000 people, with a total investment crowding the billion dollar mark."

WEST BEND, WISC., NEWS: "As an example of the progress being made in the United States. . . in 1945, the death rate from influenza and pneumonia was 47 per 100,000 population. Ten years later, in 1955, the figure had been reduced by approximately one-half. The death rate from tuberculosis had been reduced by 75 per cent in the same decade."

TALLAHASSEE, ALA., TRIBUNE: "This newspaper has long advocated the proposition that a man's desire to join or not join a union is his God-given privilege."

TRAER, IOWA, STAR-CLIPPER: "The American principle of freedom of opportunity is related to Jesus' parable of the talents. You remember the story of the three men who were given one, two and five talents. The man with but one talent buried his. The other two worked hard and increased their holdings twofold."

JOHNSTON, S. C., RIDGE CITIZEN: "There are powerful forces at work in this nation attempting to federalize the schools along with the power industry and others. We should be on guard against these forces."

NORWALK, CONN., HOUR: "The family doctor is a great institution. His financial reward may not be as great as the specialist's but the personal and professional satisfaction he gets in his practice truly is beyond price."

Mrs. John Ehler and Mabel, of Ringwood, stayed at the Cyril Pacey home.

Mr. and Mrs. Orville Pacey, Man-kato, Minn., spent Saturday evening at the Cyril Pacey home.

## Among the Candidates for the State Legislature—

1. Candidate A tells of 2 years experience in public office. Candidate B tells of 4 years in a public office. Candidate C has 7 years in a major elective office.
2. Candidate A tells of 2 partial years of night school. Candidate B states that he is a high school graduate. Candidate C has seven years of college and university training in the field of government.
3. Candidate A mentions briefly being in the war. Candidate B tells of 4 years wartime infantry service. Candidate C has 5 years wartime service, and 18 years in the infantry reserves besides.
4. Candidate A has lived in Lake County for many years. Candidate B was born in Lake County. Candidate C's people were born in Lake County for five generations back. C is descended from the original settlers who took Lake County away from the Indians.

Who is candidate C? It is **Robert Coulson**, the third name on the ballot; for seven years Mayor of Waukegan, graduate of Dartmouth College and the University of Chicago.

### What are candidate C's handicaps and shortcomings?

1. He keeps mentioning his education and war record. It sounds like boasting. (But every voter's handbook lists Experience, Education, War Service and Residence as the four qualifications for every candidate to submit. These are the ABC's of running for office. Personally, I do not like to run on qualifications; I would rather campaign on issues. (But I can't get my rivals to discuss issues.)
2. C is a city slicker, while the banker and the tax collector are the true friends of the people. (You wouldn't believe this if you knew what a struggle my friends had to get me to wear white shirts for this campaign.)
3. C already has a job. (But this is not musical chairs. This is a matter of selecting two men who will represent 200,000 people, and vote on the expenditure of a billion dollars.)

How serious are these disadvantages? That is for you to decide.

That is why we have elections; to let you decide what kind of politicians you want.

# SOCIETY EVENTS

## Mrs. Carolyn M. Horan Elected New President Of B. and P. W. Club

Mrs. Carolyn M. Horan of 407 Orchard St., was elected president of the Antioch Business and Professional Woman's club at a luncheon meeting Monday at the Scout House.

She succeeds Mrs. Wanda Otfedahl who served two years. Other officers chosen are Mrs. Wanda Barthel, vice president; Mrs. Ruth Gaston, secretary; and Mrs. Dorothy Besch, treasurer.

These officers will be installed at a dinner meeting on May 7 at the George Diamond Steak House when members will be privileged to have guests.

Mrs. W. C. Petty was the speaker at Monday's meeting. She discussed parliamentary rules and procedures that would apply at the club meeting.

In charge of the luncheon were Mrs. Barthel, chairman, Mrs. Margaret Gaston, Mrs. Ann Kopriva, and Mrs. Marie Vanderlester.

## 200 ATTEND SUNRISE SERVICE AT ROUND L.

Approximately 200 persons attended the Easter Sunrise Services at the Baptist Bible Church of Round Lake Beach, which was sponsored by them and three other local churches. Because of the strong and chilling winds, it was necessary to meet at the church, instead of the Lake Front as planned.

This Friday, April 6 at 11:30 a.m. the Ladies Missionary Society of the Baptist Bible Church will meet for their regular monthly work day. The ladies are to bring their own sandwiches, dessert and coffee will be served by the hostess, Mrs. Novella Hankins. Also this Friday at 7:30 p.m. is Teen-age night, games galore and fun for all.

Just as a reminder, beginning Sunday, April 8 the evening services of the Baptist Bible Church will begin at 7:00 p.m. instead of 7:30.

## ANNOUNCE ENGAGEMENT OF DAUGHTER

Mr. and Mrs. N. G. Haydon of Lake Marie announce the engagement of their daughter Patricia to Mr. Jack B. Meyer, son of Mr. and Mrs. Ray Meyer of Channahon, Ill. The wedding date has not been set.

The Rev. John Irwin of Evanston will lead in worship and preach on the theme, "A Perpetual Memorial" at the morning service of the Antioch Methodist Church Sunday, April 8th. Mr. Irwin is a member of the faculty of Garrett Biblical Institute a graduate seminary of the Methodist Church in Evanston. The service of worship begins at eleven a.m.

Mrs. Betty Meyer of Antioch gave an interesting talk and showed films on interior decorating before the Lake Villa Woman's club at its meeting March 24 at the home of Mrs. Mildred Greene on Petite Lake Road. The hostess for the evening assisting Mrs. Greene were: Pam Pavel, Helen Fath and Betty Reidel.

## SUNSHINE CLUB HOLDS MEETING TUESDAY

Members of the Sunshine club held a regular monthly meeting Tuesday, March 27, at the home of Mrs. Oscar Gleichner at Voltz Lake. Following the current business session refreshments were served by the hostess, with Mrs. Walter Jauch and Mrs. Herman Klawitter of Silver Lake assisting.

## Library News

In the past two years, the circulation of books at the Antioch Township Library has increased by almost 10,000. The circulation figures for the past year are 37,580 books and periodicals. In 1953, the library circulated 27,960 books and periodicals and in 1954, the figure was 34,902. Much of the increase is due to large circulation of children's books. 21,395, or 57%, of the books were borrowed by the children of the community.

During the past year, 658 new books were added to the library's collection making a total of 11,825 books now owned and circulated. In the reference section, a Funk & Wagnall's New Standard Dictionary, a new edition of "Twentieth Century Authors", a school and library atlas of the world, and the current "Who's Who in America" were added. "Who's Who in America" lists Daniel A. Williams, son of Mrs. R. D. Williams, who has lived in Antioch for many years. Mr. Williams attended Antioch Grade School and Antioch Township High School. He and his wife and little daughter now live in Des Moines, Iowa, where he is head librarian at the Des Moines Public Library.

**Card of Thanks**  
We wish to express our appreciation and thanks to our neighbors and friends for the many acts of kindness and sympathy shown during our recent bereavement.  
The Louis Koppen Family

## Masons at Millburn Dedicate New Temple In Service Saturday

Millburn Masons dedicated their new \$60,000 temple Saturday evening in services conducted by Grand Master Milton Sonntag and his staff of state officers.

The ceremony started at 5 p.m. with the presentation of the deed by Philip W. Anderson, president of the Millburn Temple Assn. to T. R. Messler, master of the lodge.

The Temple association was formed many years ago as a separate group of Masons to finance and build the new temple. After much effort the fund was realized and the building erected. Debt free, the building was turned over to the lodge and the association dissolved.

Officers of the association given recognition at the service were Anderson, Henry Reidel, vice president; B. J. Hooper, Lake Villa, secretary; Ray Perry, treasurer; La Vern Dixon, attorney; Eric Anderson, Kless Gysen, Alfred Pierce, and T. R. Messler.

After the presentation of the deed to the lodge, Grand Master Sonntag conducted the dedication ceremony.

Nearly 200 persons were entertained at dinner afterwards by the officers of the lodge and their wives.

## Lions District Safari At Chevy Chase Club On Sunday, April 22

District 1-F of Lions International is planning one of the most ambitious and interesting club participation programs ever held in this area. The Antioch club along with 33 other clubs in the Illinois district will meet on Sunday, April 22, at the Chevy Chase Country Club near Wheeling for the first Lions Safari ever held by these clubs.

Jesse D. Allen of Lake Zurich, district governor of 1-F, has enlisted the help of his entire cabinet and many officers and members of the various clubs to make this an outstanding day for the Lions and their ladies.

Festivities will start at 3 p.m. and be continuous until late in the evening. There will be features for the ladies as well as the Lions and guests. Dinner will be served at 7:30. Entertainment and dancing will follow the dinner which will be highlighted by the annual recognition of the International Counsellors (past district governors). It will be a district convention with a plus program bearing the label "Safari."

Chevy Chase Country Club, situated on Milwaukee Ave. near Wheeling, was found to have all the facilities needed to provide the ladies with an outstanding style show while the member Lions are attending the district convention. The district cabinet met at Chevy Chase recently sampled and approved the suggested menu. A really fine dance band—complete with girl vocalist—was obtained for the dancing.

Governor Allen expects some 300 to attend the Safari. "Without a doubt all Lions and ladies present will be in for an outstanding participation program," he said.

## Armed Forces Personnel To Visit Antioch High

An armed forces assembly will be presented at Antioch Township high school at 8:45 a.m. Tuesday, April 10 with arrangements being made by Chief Leslie Long, Navy recruiter for this area. All major branches of the service will be represented and at least one service woman will be present.

The armed forces personnel will stay at the school until 10:45 a.m., spending the last portion of their time with discussion groups. Parents and other interested persons are invited to attend.

## Miss Palmer to Become the Bride of G. C. Millsop Apr. 27

Mr. and Mrs. Wilford N. Palmer, Sr., of Deep Lake, Lake Villa, announce the approaching marriage of their daughter, Rhoda Jayne to Gordon Chase Millsop, son of Mr. Gordon D. Millsop of Tomah, Wis., and Mrs. Fred Peth of Newport Beach, Calif. The wedding will take place April 27 at 8 p.m. at St. Andrew's Episcopal church, Grayslake, Ill.

Arriving home from Milwaukee-Downer College for spring vacation, April 6 to 16, will be Roberta Jach, daughter of Mr. and Mrs. Fred W. Jach, Rte. 2.

Mr. and Mrs. K. F. Deitrick, Windsor drive, returned home recently after vacationing in Florida.

## Girl Scout News

Girl Scouts from over 45 troops in the Lakeside Council are getting ready for their sixth annual Lakeside Girl Scout Council Exhibit, to be held this Saturday, April 7th, from 3:30 to 10 p.m. at the Round Lake Consolidated Grade school.

The Brownie program will commence at 4 p.m., highlights including an "Action Song" by Troop 30 of Lake Villa, a Brownie Play by Troop No. 1 of Lake Villa, "Spring Activity" by troop No. 15 of Round Lake, and a Girl Scout Fashion show by Troops 4, 57 and 28, all of Grayslake.

The Intermediate program has been changed to commence at 7:30 p.m. instead of 8 p.m., and its highlights include "What It Means to Be a Girl Scout" by Troop No. 52 of Ingleside, First Aid Demonstration by Troop No. 26 of Fox Lake, "Snow White and the Seven Dwarfs" by Troop No. 6 of Grass Lake, Girl Scout Fashion Show by Troop No. 5 of Antioch, "Beauty and the Beast" by Troop No. 29 of Lake Villa, and a military drill, "Tribute to the U. S. A." by Troop No. 51 of Round Lake.

Between and after the programs, guests are invited to view the many fine exhibits created by the various troops in the Lakeside Council.

Refreshments will also be sold by the Antioch Senior Girl Scout Troop from 5 to 7 p.m.

There is no admission charge, and the general public is cordially invited to attend. We recommend you "plan to spend the day with us."

## Membership Drive for Concert Assn. Starts

The fourth annual membership campaign of the Lake County Community Concert Association, formerly Civic Music Association, will get under way Monday, April 9, and continue for one week through April 14.

The Association during the 1955-56 season will present a series of at least four concerts, headlined by the Boston Pops Tour Orchestra, under the direction of its world-famous conductor, Arthur Fiedler.

Concerts for the coming year will include renowned concert artists, the names of whom will be announced at the close of the membership drive. The Lake County Community Concert Association is a self-sustaining non-profit organization. The association does not announce artists until the close of the membership drive when all money is in and pooled. In this way, the association can incur no deficit.

Memberships in the Association are \$6 for adults and \$3 for students. No single admissions are sold. Memberships are available only during the campaign.

Memberships are available at the Waukegan Music Mart, 223 Washington st., Waukegan, and from over 225 campaign workers all over Lake county. A special dinner meeting for workers is being held Sunday, April 8, at the Swedish Glee Club in Waukegan.

## WOMAN'S CLUB WILL MAKE TRIP TO MILWAUKEE

Members of the Antioch Woman's Club will meet at the Scout House at 8:30 a.m. Monday, April 9 to go to Milwaukee where they will tour Johnston's, makers of crackers and confections. They will lunch at the Milwaukee Athletic club.

## Thebest Blind Company Enlarged Store, Will Celebrate Anniversary

Owing to the increase in business and constant request for additional items to adorn windows, Thebest Venetian Blind Co. has remodeled its store increasing it to four times the original size at the present address, 879 Main st.

The business was started in 1946, serving Lake and Kenosha counties. In celebration of the eleventh year the firm is inviting everyone to come in to its store tomorrow and Saturday and have cake and coffee, receive a useful household gift and participate in a gift of merchandise. There will be toys for the children.

## Township Assessors Begin Annual Farm Census on April 2nd

On April 2 township assessors and deputies in rural townships will start their nineteenth annual enumeration of farm land, crops and livestock in connection with their assessment of personal property. The census will cover the same crop and livestock items as a year ago according to J. A. Ewing, Statistician for the Illinois State Department of Agriculture.

Each farm operator will be asked how many acres he is farming in 1956 and the acres of the various crops harvested on that land in 1955 whether he farmed it or not. The crops include corn, small grains, soybeans and cowpeas, the principal kinds of hay, hay seeds, such as red clover, timothy and lespedeza, and miscellaneous crops such as sweet corn, popcorn and truck crops. Other land use includes plowland and other pasture and all other acreage such as idle and waste ground, woods not pastured and lots. The sum of the acres of the crops harvested, together with pasture and other land use in 1955 should add to total land in the farm being operated in 1956. For example, on a 240 acre farm being operated in 1956, a complete accounting of crops and other land use on that acreage in 1955 was as follows: 70 acres of corn, 25 acres of oats, 12 acres of wheat, 45 acres of soybeans, 35 acres of alfalfa hay, 20 acres of plowland pasture, 22 acres of other pasture and 11 acres of all other land including woods not pastured and lots.

Farm operators will be asked to report number of milk cows and heifers two years old and over on hand the day the assessor visits them, also number of hens and pullets of laying age on that day. They will be asked to report number of grain fed cattle they marketed in 1955 also number of other cattle marketed last year such as cull dairy cows, veal calves, feeders and bulls. There will be the usual two questions on sows—number of fall sows that farrowed between June 1, 1955 and December 1, 1955 and number of spring sows that have farrowed between December 1, 1955 and June 1, 1956.

Farmers can save time for themselves and also for the assessors by having these figures in mind when the latter call on them. All information given the assessors is strictly confidential and not used in any way for Federal tax information. The figures are collected in accordance with an act of the Illinois State Legislature and used only in compiling township and county totals. County and state statistics compiled from this enumeration may be obtained from the Division of Agricultural Statistics, Illinois Department of Agriculture and township figures can be gotten from either the county clerk of farm adviser for their respective counties. These data

provide an accurate annual record of the ups and downs in Illinois crops and livestock. In the eighteen years the State Farm Census has been taken the number of farms has declined from 213,000 to 176,000. Alfalfa acreage has increased from 400,000 acres to over a million and soybeans have gone up from 1 1/2 million to over four million acres.

Corn has ranged from 7 1/2 million to 9 1/4 million acres and wheat from less than a million to over two million acres.

Burton R. Miller  
Agr. Statistician

J. A. Ewing, Agr. Statistician in Charge, Division of Agricultural Statistics, Illinois and U. S. Department of Agriculture.

## Participants in Junior Class Play

Present guests at a sanitarium, the Cloister, left, looking over a new member, is a scene that will be presented in costume by members of the cast of the senior play "The Curious Savage," on Friday and Saturday, April 13, and 14, by Antioch High School. The members of the cast are left to right, Mary Tully as Mrs. Patty; James Scully as Jeff; Lenore McCord as Florence; John Kelly as Hannibal; Pat Lamm as Fairy May; and Joanne Haydon as Mrs. Ethel Savage, the leading character. Miss Patricia Howard is the coach.

## Race For Representative

(continued from page 1)

lowe, are campaigning for the two posts of delegates to the national nominating convention.

On the Democratic ticket at the state level, Morris B. Sachs, Chicago merchant, is opposing Herbert C. Paschen for governor and James L. Groffon is opposing Roscoe Bonjean for lieutenant governor.

Richard Stengel is the only Democratic candidate for United States Senator, and Adlai E. Stevenson the only candidate for president.

Despite Dwight E. Eisenhower's popularity, he has opposition in Illinois from William F. Knowland, and Lar (America First) Daly, who has ambition for the federal post as well as the Illinois governorship.

Contests for party office have developed in three of Antioch's five precincts in the Republican ranks, with the keenest rivalry in precinct four where Jack Wolff, committeeman for many years, failed to file for re-election. Three candidates seek the office with George J. Mazzuca, Helen I. Burke, and John R. Russo trying for the job.

Other contests are in Precinct 1, with Dan Lightsey, associated with Carlson Ford Sales, opposing Frank Kelly, operator of a tavern on route 173; and in Precinct 3 with John R. high individual scorer, having games of 232-188-194—614 total.

Lahti Oil Co., took two games from Gaston Printing. (Well, that's some better, boys.)

Meyer's Tavern beat Lasco's Sanitary Service all three games.

Weber Duck Farm won two games from Bill's Texaco.

Reliable Appliance took two from Willow Farm.

George's Bar took two from Adam's Tavern.

Pickard China beat VFW all three games.

Tavern League  
Monday, April 2

TARFU took high team series with games of 819-860-868—total 2547.

Irv. Walsh of Bud's was high individual scorer with games of 201-226-212—total 639.

Pasadena won two games from Joe and Helen's.

Kemp's beat Kapella all three games.

Red Arroy won two from Coles.

Tarfu won two games from Smart's.

Bud's took two from Slide Inn.

Antioch Recreation won two games from Thompson.

Major Gutter Ball Girls  
Tuesday, April 3

Blum's took high team series with games of 704-721-134—2159 total.

Arlene Holm, of Fortmann's D-X was high individual scorer with games of 152-180-175—507 total.

Fortmann's D-X took two games from Red Arrow Inn.

Hamm's Beer beat Meinersmann's Insurance all three games.

State Bank took two games from Taylor's Shoe Store.

John's River Inn won two games from Pedersen's Bakery.

The Jewel Box beat Launderette all three games.

Blum's took two games from La-Plant Masonry.

Campaign Chairman  
Tells Where Cancer  
Fund Money is Used

What happens to the contributions made to the Lake County Unit of the American Cancer Society during its April Crusade to raise \$37,500 as its share of the ACS nationwide drive for \$26,000,000?

"Knowing where the money goes," Mrs. Louis A. Biel, local campaign chairman for Antioch said, "is the right of every contributor to this Cancer Control Month quest for funds to support the Society's far-reaching programs of medical and scientific research to find new cures for cancer, public and professional education, and service to patients."

Here is how collected money is distributed, as explained by the chairman:

The Illinois Division which has headquarters in Chicago, keeps 60 cents of every dollar raised in the state, to administer state-wide and community programs of cancer control.

Another 25 per cent is used to support cancer research throughout the United States by some 1,000 eminent scientists in 152 hospitals, universities, and laboratories in 37 states and the District of Columbia, and work in the same field by about 3,000 younger men and women serving as technicians or being trained for larger responsibilities.

Of the 12 per cent of contributions going to the Society's national office only 2.4 per cent is spent on the national fund-raising campaign.

The remaining 3 per cent is allocated for medical grants to institutions and for fellowships to train young scientists for cancer research.

"Our Division," Mrs. Biel continued, "uses its 60 per cent of the funds raised in April for such projects as improving facilities for detection and treatment of cancer; refresher courses for doctors; training nurses; for educational tools which can be used in television and radio; for motion picture films; pamphlets and posters."

In addition, the chairman pointed out, local volunteers are active the year 'round in the ACS service program making dressings and other sick-room supplies such as bed pads and bed jackets for use by cancer patients. In Lake county, "loan closets" are maintained in which are stocked a wide variety of essential items, including hospital beds and mattresses, wheel chairs, crutches and many other items needed by the home patient.

"The cancer dollar is definitely a bargain," Mrs. Biel declared. "We believe we've got our society's action organized so as to squeeze the last ounce of cancer-fighting value out of every bit of money that is given by the public during our campaign."

"Clearly, any contribution to the ACS three-front program for con-

tinued widening of cancer-control represents a solid investment in a winning struggle over man's cruellest enemy."

The Cancer Society's Lake County Unit office is located at 9 S. County street, Waukegan.

## Village Board Given.....

(continued from page 1)

subway to extend under a roadway. This will be urged by the Chamber of Commerce.

The fourth matter was the presentation of the map and with it the hope that the village will be able to act favorably in a reasonably short length of time.

## Pass Traffic Ordinance

In other business the board adopted the new traffic ordinance which when published in the Antioch News next week will go into effect. It will be the first time in Antioch's history that a village traffic ordinance has ever existed. As most of the traffic during the past has been on Main and Lake sts. the village has depended upon control of traffic through state laws. Now that the village is growing and other streets are bearing heavy traffic the local laws are needed where state laws do not apply.

The American Legion and Knights of Columbus represented by John L. Horan received permission to hold a carnival jointly July 11 to 15 inclusive. It will be placed on the Ackerman property on Broadway.

The American Cancer Society was given permission to hold Tag Day in Antioch April 28.

Remember when the only difficult thing about parking a car was getting the girl to agree to it?

### Red Cross Funds Aid Many Disaster Victims

For families who will be caught in one of nature's catastrophes this year, as they were in the eastern states floods, Mr. and Mrs. Chester Lanigan from their Red Cross financed home three miles northeast of Decatur, Ill., earnestly hope that the Red Cross annual campaign this year reaches its goal.

The Lanigans, with their four children, William, 12; Pamela and Patrick, 10-year-old twins; and Dennis, 7, were left with little hope after flood waters destroyed their home and all their belongings in East Grandby, Conn., early last fall.

They came to the Red Cross disaster office for help. The case-worker and advisory committee found that Lanigan did not have savings with which to make a down payment and his salary would permit him to pay \$65 to \$70 a month on a new home.

Lanigan, meanwhile, decided to move to Decatur, Ill., to a new job

managing the Vendaway Corp., cafeteria at the Caterpillar Tractor Co., plant. Lanigan selected his new home there and the Red Cross supplied the down payment, which permitted him to pay the balance in monthly installment.

"I don't think I could have been a home owner again without Red Cross help," Lanigan said. He listed other assistance received from the Red Cross as follows:

\$995 to pay off the mortgage on his Connecticut home.

\$1,200 for school clothing for the children and the family's winter clothing.

Before the flood disaster hit in the eastern states, Lanigan had known little about the Red Cross. "Like a lot of other people I was skeptical about how much assistance the organization really provides."

"Now I'm convinced it is a wonderful organization and I want everyone to know how I feel."

When Lanigan tells his story to other persons here in the Midwest he is often asked when he must

pay back the money he has received from the Red Cross.

"I have a hard time convincing them that I don't have to pay it back," he said. "The Red Cross doesn't do business that way. It's free—an outright gift of the American people."

The Lanigans are determined "to repay the Red Cross in some small way" by helping the local chapter whenever possible. Mrs. Lanigan already is serving as a volunteer worker.

They are both vitally concerned for the outcome of the present Red Cross campaign, knowing that after record disaster expenditures this fiscal year, the Red Cross now has less than \$1,000,000 to meet the heaviest disaster months ahead.

In the six months between July and December, the Red Cross gave aid to stricken families and small businessmen at an average rate of

\$150,000 a day. By the start of the new year more than \$27 million has been distributed in 78 disaster operations.

Since the only resources of the Red Cross are funds put up by peo-

ple appreciative of its work, the present matter boils down to this: The American people must dig deeper in their pockets, if the Red Cross is to stay on the job.

The Lanigans have been through

the greatest of these disasters the Red Cross has met and they need no imagination to realize what would happen if another national emergency should come along, with the Red Cross off the job.

Mrs. E. H. Hartnell and Mrs. Byron Patrick called on Mrs. Fred Basinger on Friday.

Mr. and Mrs. Byron Patrick spent Saturday evening with their son, Ray Patrick and family of Kenosha.

(Written for last week)

John Evans arrived home Friday after spending the past two months in Florida.

Mrs. Andrew Neilsen and her sister from Chicago left on Sunday for California where they will visit their brother and other relatives.

Mrs. Charlotte Bloss and Mrs. Nellie Head were dinner guests on Sunday evening of Mr. and Mrs. Arthur Bloss, Jr., and family.

Mr. and Mrs. Alfred Schmidt, Larry and Arlene were in White-water on Saturday where Larry played in the tournament.

Mrs. Effie Hartnell accompanied by her sister, Mrs. Andrew Fenema of Kenosha, left by train on Monday for a month's visit in California.

## Health Talk

## Lumps, Tumors and Cancers

Because many people confuse the terms tumor and cancer, needless anxieties develop. On the other hand, a recognition of the difference and the wish to have a positive diagnosis not only dispels the state of anxiety, but brings about an early detection of cancer if the tumor should prove malignant; the Educational Committee of the Illinois State Medical Society points out in "Health Talk."

Every cancer is a tumor, but not every tumor is a cancer. Neither is every lump a cancer. A tumor is an uncontrolled new growth of tissue. Some tumors are benign. That is they remain localized at the place where they start, and do not metastasize or spread to other parts of the body. In general they are not fatal.

Cancers, on the other hand, do not remain localized, do spread to other parts of the body and ultimately take the life of the patient unless proper methods are used to destroy them. This procedure, however, is difficult unless the condition is detected in the incipient stages.

Lumps may be present in many areas of the body which, on examination, may prove to be congenital malformations or the result of inflammatory conditions.

To eliminate suspicious symptoms and manifestations, and to establish

While there they will visit Mrs. Fenema's son, Marvin Fenema and family.

Mr. and Mrs. David Elfers were dinner guests on Sunday of Mrs. Ruby Wilson of Richmond.

Mr. and Mrs. Earl Elfers of Rock Lake spent Sunday evening with their parents, Mr. and Mrs. David Elfers.

Mrs. Eugene Hartnell spent Friday in Kenosha.

Mrs. Charlotte Bloss, Mrs. Florence Richards and Mrs. George Bie-mier were Burlington shoppers on Friday.

an exact diagnosis, laboratory examination of tissue from the involved area is necessary. This is accomplished by removing only a small portion of tissue from the area in which the suspicious lump is located. The tiny particle of tissue is processed chemically and examined under the microscope. If the tissue is malignant, an unusual pattern of cellular formation is noted.

Mainly, cancers spread to other parts of the body through lymphatic channels or the blood stream. All the cells in the body are bathed in watery fluid called lymph which empties into vessels very much like blood vessels. Ultimately this fluid empties into the blood stream. For example, in cancer of the breast,

cancer cells from the breast mass will follow the lymphatic channels to the lymph glands, draining the breast and localizing in the axillary glands underneath the armpits. These glands then enlarge and become hard.

Common symptoms and signs associated with cancer include any unusual lump or thickening, especially in the breast; any irregular or unexplained bleeding from body orifices; a sore that does not heal, particularly about the mouth, tongue or lips; noticeable changes in a mole or wart; loss of appetite or continued unexplained indigestion; any persistent change from the normal bowel habits; persistent hoarseness and chronic cough, particularly

when blood in the sputum accompanies it. It should be emphasized, however, that these symptoms do not necessarily mean cancer, but are an indication that they must be investigated.

The recognized methods for treating cancer are still surgery and radiation, including x-ray and the gamma rays of radium. Newer radioactive agent uncovered in this

atomic age are now coming into use, but surgery, radiation and radium still remain the main methods of treatment.

Do not worry needlessly about the lump, or tumor. Have them investigated. Remember that control is easier when a malignancy is detected early, and better still—laboratory examination may reveal that cancer is not present at all.

## New Area Shown On Mars Bolsters Living Planet Idea

WASHINGTON—A new blue-green area on the red face of Mars, almost the size of Texas and believed to be living vegetation, has produced the greatest change in Martian geography since the planet was first mapped 125 years ago.

The discovery was announced by Dr. E. C. Slipher, a distinguished astronomer and leader of the 1954 National Geographic-Lowell Observatory Mars Expedition to photograph the planet from South Africa.

Last summer, as it will again in 1956, Mars set off a world-wide study by spinning closer to the earth than at any time since 1941. Results of its near approach are gradually being revealed by scientific scrutiny of thousands of photographs collected by an International Mars Committee. Twenty thousand photographs were made by Dr. Slipher alone.

The new dark marking, covering approximately 200,000 square miles near the great Thoth Canal, was totally unexpected. Never before has such a new dark splotch appeared except as an increase of an existing dark area.

The remarkable transformation, Dr. Slipher reports, indicates that the division between Martian desert and dark areas is not necessarily fixed or permanent; one may change to the other at any time. It helps support the conclusion that Mars is not a dead world, that the darkening is due to the growth of plant life.

## Sunburn Remedies May Cause Reaction

CHICAGO—Preparations to protect the skin from sunburn may actually cause inflammation, a Florida dermatologist says.

Dr. Wiley M. Sams, Miami, says that the preparations themselves are harmless to the skin, but in the presence of direct sunlight sometimes cause redness and eruptions of the skin.

Lime oil, bergamot oil, some perfumes and toilet waters, and some derivatives of tannic acids have caused reactions among Dr. Sams' patients. Other southern dermatologists also are seeing cases of "contact photodermatitis" with increasing frequency, he said.

What apparently happens is that the preparations, while protecting the skin from the "sunburning" light rays, produce a chemical reaction in the skin which sensitizes it to other light rays. Routine "patch" tests with the same preparations but without exposure to sunlight fail to produce any reactions in most cases, he said.

Dr. Sams pointed out that the eruptions are short-lived and do not cause too much discomfort.

## Accidental Deaths Up By 2,000 in 1955

NEW YORK—Accidental deaths in the United States increased by about 2,000 during 1955, bringing the year's total to approximately 92,000, according to insurance company statisticians.

This increase is due principally to motor vehicle accidents, with the number of fatalities from such mishaps probably reaching 38,500—or 2,500 more than in 1954. Thus motor vehicle mishaps accounted for more than two-fifths of all accidental deaths, a far greater toll than from any other single type of accident.

Public accidents other than those involving motor vehicles took a slightly larger number of lives than in 1954, totaling nearly 16,000. Injuries arising out of and in the course of employment caused about 14,000 deaths, the same as in the previous year. Fatal injuries in the home declined to about 27,000, a small improvement over the record for 1954.

## Body Tug-of-War At High Altitudes

BERKELEY, Cal.—A tug-of-war between two mechanisms in the body may be the cause of most of the symptoms of altitude sickness—the ailment which affects visitors to high mountain regions.

This possibility is being investigated by a University of California research team. Dr. Nello Pace says that a regulating mechanism in the carotid arteries responds to high altitude by calling for increased breathing, while the respiratory center in the brain reacts by calling for less breathing. Several days may be needed before the two mechanisms adjust to altitude and begin to work in harmony, he added.

## Fewer Executions

WASHINGTON—The Federal Prisons Bureau has reported that 1955 again spotlighted a trend toward fewer executions, in evidence for a number of years.

Last year's 78 executions were the smallest number since the bureau started keeping such statistics in 1930, except for 1953.

## Tips on Traffic Safety

By  
**CHARLES F. CARPENTIER**  
Secretary of State

The forthcoming Memorial Day holiday unofficially gets the summer vacation season underway. And with it will come the annual surge to the highways by motorists across the state and nation.

It is most unfortunate that on a day set aside to honor our war dead we have to face the prospect of hundreds of Americans losing their lives on the highways. And the truly regrettable part of this tragedy is that these lives could be spared if the rules of the road were heeded.

It seems that a holiday driving habit of many is to weave in and out of traffic in an effort to arrive at a destination as quickly as possible in order to spend more time visiting and relaxing. Those who persist in this habit may just as well face the absolute fact that some day they are not going to arrive anywhere—on this planet, that is.

## MEMORIAL DAY

Practicing courtesy when behind the steering wheel is always a good rule. But, when the highways are clogged with holiday traffic, its dividends are doubled.

A copy of the completely new "Rules of the Road" booklet will be sent to you free upon request. Write to CHARLES F. CARPENTIER, Secretary of State, Springfield, Illinois.

Improved highways in the state now allow Illinois motorists to travel at higher speeds while maintaining a safe rate of speed. However, there are some motorists who attempt to travel at speeds designed for superhighways when they are motoring on secondary roads.

When no speed limit is posted the motorist must rely on his own judgment as to how fast he should travel while keeping his vehicle at a safe speed. Conditions on an open, four-lane highway may call for a certain top safe speed, but the same conditions on a two lane road would demand that the motorist keep his speed well below that figure.

Braking distance, and the distance necessary to safely pass another vehicle are but two of the many factors to be taken into consideration while maintaining a slower speed on secondary roads. It is up to the motorist many times to decide the top speed he may safely drive at to protect his life and the lives of others.

A copy of the completely new "Rules of the Road" booklet will be sent to you free upon request. Write to CHARLES F. CARPENTIER, Secretary of State, Springfield, Illinois.

Impatience behind the steering wheel of a motor vehicle has led to many an accident. Many motorists have discovered, unfortunately, that being in a "hurry" can only result in a prolonged delay because of an accident. Injuries and deaths may also result.

It may not be the fastest way to arrive at a destination, but by being courteous we may avoid an accident. And while it does not aid a hurried trip at all, a motorist should always be ready to yield the right-of-way. A quick start the instant a traffic signal turns green may also be a quick movement in the direction of an accident.

Passing on hills and curves is said by many an expert to be a sure way to "pass out" into eternity. There are some motorists in such a hurry that they do not realize that there are good reasons for the posting of speed limits. Safe travel is travel at a reasonable and proper speed. Weaving from one lane of traffic to the other is one of the surer ways of heading straight for an accident. If motorists would leave sooner for a destination, or settle for "better late than never," many accidents would be eliminated. A driver in a hurry—an impatient driver—can cause untold damage.

A copy of the completely new "Rules of the Road" booklet will be sent to you free upon request. Write to CHARLES F. CARPENTIER, Secretary of State, Springfield, Illinois.

## FOOD...through the ages

RECIPES, VERBAL OR WRITTEN, ARE AS OLD AS COOKERY.

GREEK POET MENANDER (343-291 B.C.) LOST RECIPE FOR FISH SAUCE HAS BEEN SOUGHT BY SCHOLARLY EPICURES FOR OVER 2000 YEARS.

ALEXANDER DUMAS, THE ELDER (1802-1870) WROTE A 1200 PAGE DICTIONARY OF RECIPES, INCLUDING: ELEPHANTS FEET, KANGAROO FILLETS AND JAVANESE KINGFISHERS NESTS!

AMERICAN RECIPES ARE PERENNIAL FAVORITES, LIKE THE QUICK, EASY FROSTINGS MADE WITH SWEETENED CONDENSED MILK.

FOR ANOTHER MAGIC RECIPE, COCONUT MACAROONS, BLEND 1/2 CUP SWEETENED CONDENSED MILK WITH 3 CUPS SHREDDED COCONUT AND ONE TEASPOON VANILLA... DROP BY TEASPOON ON GREASED BAKERY SHEET. BAKE 8 TO 10 MINUTES AT 350° FAHRENHEIT UNTIL A DELICATE BROWN.

## COFFEE: A Conversation Piece

Of all the groceries in daily American use, few have as legendary and romantic a background as coffee. Some of its colorful facts and traditions make conversation pieces almost as stimulating as the beverage itself.

One Arabian legend relates that coffee came into use when it "got the goats" of a herdsman named Kaldi. He reported to the abbot of a monastery that his flock went into a frolicsome dance after eating berries off a certain tree. When the cleric boiled the berries in water, he derived an exhilarating brew which helped his monks to stay awake during midnight prayers.

This monastic coffee ritual was the predecessor of the daily coffee break enjoyed by millions of American workers and housewives. In a survey among plant managers, 82% credited coffee breaks with a reduction in worker fatigue and 62% said they increased productivity.

Coffee has also been a factor in adventure and espionage. The famed Polish spy, Franz Kol-schitzky, who saved Vienna from besieging Turks, opened the first Viennese coffee house. As reward for his heroic exploits, including swimming the Danube several times to circumvent enemy lines, he was given sacks of green coffee abandoned by the fleeing Turks.

Today, you can find coffee houses in nearly every metropolis of Europe, many with their own history of famous patrons and epochal events. In England, Samuel Johnson established the Turk's Head coffee house which became a gathering place for artists and writers of his era. It is rumored that in the archives of the old Cafe Central in Herengasse there is an unpaid bill for

a cup of black coffee—charged to Trotsky.

In the U.S., Boston's Green Dragon coffee house was called "headquarters of the Revolution" by Daniel Webster, and the Merchants' House in New York was the scene of Washington's pre-inaugural reception. A forerunner of the Revolution itself—the Boston Tea Party—when colonists dressed as Indians dumped British tea into the harbor to protest taxes, accelerated coffee's popularity in this country. Today, Americans drink more than 300 million cups of coffee a day.

In addition to its role in adventure, history and literature, coffee—or the lack of it—has been the point of issue in the courtroom. In Turkey, at one time, a husband's failure to provide coffee for his wife was legitimate grounds for divorce. In affairs of the heart, Madame du Barry was among ladies who were wooed with gifts of coffee, and Bach's Coffee Cantata sings of a girl who insists on a marriage contract stating that she may have coffee whenever she wishes. Nowadays, discriminating hostesses recognize its indispensability at socials.

To Napoleon, coffee was something that "gives me warmth, an

unusual force." To General Sherman, in his remarks on troop rations, it was "something to be carried along, even at the expense of bread." To the English clergyman and humorist Sydney Smith, it was "the intellectual beverage."

Name your favorite phase of history and research will show where coffee has played a part. And, considering its popularity in America today—our largest imported commodity—the beverage will undoubtedly continue to be part of the backdrop for memorable world events.

Will you join us in welcoming Spring?

Will you be our guest at the Spring Fashion Festival of the Best Buicks Yet?

We can promise you the season's most exciting vista—a fashion display of the stunning new Buicks, all in gay Springtime colors, including the very newest: Apricot and Bittersweet.

And, if such is your desire, you can blossom out in your own new Buick—in any Series, in any model—with the Springtime freshness of any of these bright colors.

But when the looking is done, there's the driving you can do—and that's the sheerest thrill of all.

For that's when you feel the solid comfort of Buick's great new ride. That's when you feel that sweet new handling. That's when you feel the silken might of Buick's lofty new horsepowers.

And that's when you feel the spine-tingling sweep of that new Variable Pitch Dynaflo\*—where getaway and gas saving hit new highs at only part throttle—and where you can switch the pitch for

a safety-surge of full-power acceleration that's pure thrill.

So—come be our guest—at our Spring Fashion Festival—and at the wheel of the most spirited Buick yet.

\*New Advanced Variable Pitch Dynaflo is the only Dynaflo Buick builds today. It is standard on Roadmaster, Super and Century—optional at modest extra cost on the Special.

## Hypnotism Labeled Dangerous if Used By Irresponsible

CHICAGO—Hypnotism can be a useful tool in the hands of a qualified specialist, but it can be "down-right dangerous" when used by an irresponsible person, says Dr. James A. Brussel, according to a New York psychiatrist.

Dr. Brussel said three principles regarding hypnotism to which medical science subscribes are: (1) Where hypnotism removes symptoms, an illness may be obscured and prolonged, since causes are not treated. (2) Where hypnotism treats emotional symptoms instead of causes, more serious personality defects may occur. (3) Where hypnotism evokes delusions, habits of thought as harmful as drug addiction may be formed.

Hypnotism can be useful, especially in psychotherapy, by relieving certain symptoms and manifestations. However, these very gains are exploited by untrained and irresponsible persons. Dr. Brussel said.

"By virtue of the sudden, immediate and seemingly successful results achieved through hypnosis, the quick flourishes and creates damage that is at times appalling," he said.

Hypnotism by trained specialists in psychotherapy may be used to remove some psychological or physical condition which interferes with the beginning of satisfactory therapy. Its use, though, must be limited to certain neuroses, he said.

## Old Roman Drafted Long Time Soldier

LOS ANGELES—Young people who dread serving their required military service should thank their lucky stars they didn't live back in the days of early Rome.

Required length of service in the Roman legions was from 20 to 40 years, says Dr. Arthur McInlay, professor of Latin, emeritus, on the Los Angeles campus of the University of California, and an authority on Greco-Roman history.

A young man who donned the Roman armor could expect to fight in from 20 to 25 military campaigns during his career, reports Dr. McInlay. Since fighting in those days was mostly of the hand-to-hand variety, his chances of coming home in one piece were slim indeed.

So distasteful was the 20-year military hitch that members of the well-to-do Roman classes ceased enrolling as soldiers about 100 B.C. For the next two centuries, Roman generals filled out their legions with soldiers recruited in Spain, Gaul, and Germany.

## Fire Costs Increased \$14 Million in 1955

NEW YORK—Last year fire cost the United States an estimated \$885,218,000 as compared with \$870,984,000 in 1954, according to the National Board of Fire Underwriters.

This is an increase of 1.6 per cent, or over \$14 million.

Collectively, the yearly fire costs represent a tremendous economic loss to the nation. Broken down into the hundreds of thousands of statistics which make up the total, they tell the story of thousands of homes destroyed, businesses closed temporarily or burned out permanently, and untold other instances of individual misfortune.

Added to the toll of 11,000 annual fire deaths, they complete a picture of tragic waste. Worse still it is largely needless waste, because human carelessness and lack of understanding are responsible for approximately 90 per cent of all fires.

## New Vapor Analyzer Is Highly Sensitive

PITTSBURGH—A small, easily carried water-vapor analyzer—so sensitive that it can detect one drop of water in the air of an average size living room—uses electrolysis to break down moisture into its component elements of oxygen and hydrogen.

Up to now some operations in the chemical, oil and metallurgical industries could not be run at peak efficiency because of the inability to detect minute traces of water. Approximately 10 times as sensitive as the best existing water analysis techniques, the new instrument will precisely measure concentrations of less than one part per million in flowing samples. Desert air, dry as it is, normally contains 10,000 parts per million of water.

## Being Up or Down?

SEATTLE—James E. Flaherty started with the Seattle transit system many years ago as a street-car motorman with a salary of \$22 a week. Now he wonders about the reward of working up in the organization.

As the new chairman of the Seattle Transit Commission, the community weekly publisher serves without a salary.

## World's Largest Shovel For Coal Mine

Ninety tons of earth in one tremendous bite is the capacity of the largest power shovel in the world. Built by the Marion Power Shovel Company at a cost of more than two and a half million dollars, the Goliath of earthmovers is equipped with Timken tapered roller bearings in all its hoist sheaves that lift the loaded dipper and its swinging machinery which revolves the machine. Timken bearings are also used extensively in the shovel's maintenance cranes.

It will be used in a strip mine operation in southern Ohio by the Hanna Coal Company to lift ninety feet of earth or overburden from atop a five-foot coal vein. Builders of the gigantic machine say that it consumes enough electric power to supply 5,200 homes or to power a modern ocean freighter with an 80-foot beam and six hundred sixty feet in length.

Two big pulleys at the end of the shovel's boom, which turn on four Timken bearings, carry loads up to half a million pounds. The monster shovel is so large that it uses a permanently installed auxiliary Timken-bearing-equipped crane for the sole purpose of lifting parts and supplies and an overhead traveling crane for maintenance use. Another feature of the Hanna Company's strip mining power shovel is a small elevator used to transport the operator and maintenance men up to the shovel's cabin. The big Timken bearings in the machine will easily handle the tremendous loads imposed upon them.

## Guide For Giving

When it comes to help others in distress the Red Cross has never weighed the cost. No matter how great the disaster it provides freely of its funds until all humanitarian needs are met. This policy in the last nine months, unprecedented by the severity and scope of disaster in the organization's 75-year history, has brought the Red Cross dangerously close to disaster itself—an economic one.

With six of the heaviest disaster-frequency months still ahead in its fiscal year, Red Cross disaster relief funds have shrunk to less than one million dollars after the record-breaking drain of funds needed to restore families to normal in the Eastern States floods, the Western States floods, and several major tornadoes.

All needs of emergency relief

and restoring disaster-stricken families back to homes have been met so far. Thanks to the outpouring of generosity of people everywhere the Red Cross received nearly \$16,000,000 in its special flood relief campaign last August. But total cost of the two coastal floods has mounted to over \$27,000,000 absorbing these funds and nearly depleting the organization's total disaster reserves, too.

Nor has the Red Cross held back in expending for its other services. During the last fiscal year the Red Cross provided services to servicemen and their dependents here and overseas, and to veterans and their dependents at an average expenditure of \$68 per minute. Red Cross made available free blood that you donated for fellow Americans at an average expenditure of \$24 each minute. Safety and health services were provided at an average of \$11 per minute.

In total, the Red Cross provided

all its services, at home and abroad, at an average financial expenditure of \$167 each minute. These expenditures for alleviating human suffering and distress work went on with each tick of the clock, night and day, each day in the year.

Yet, to balance all this good work, the Red Cross asks our help just once a year, during its March campaign. And then it asks for only enough, from each of us proportionately, to fulfill its obligations.

Broken down to individuals it amounts to this. If you show \$2400 yearly income on your tax form, the Red Cross asks you to contribute 5c a week or \$2.40 for the year; your wife, 1 1/2c a week or one dollar. If graduates upward on a sliding scale.

If your tax form yearly income shows \$4800, you are asked to contribute 15c a week or \$7.50, your wife 5c a week or \$2.50. For a \$7200 yearly income, you are asked to contribute 39c a week or \$19.80; and for your wife, 13c a week or \$6.60.

This is a bare fraction of the 20 per cent the government allows for charitable contributions on income tax, or the 10 per cent spoken of as the Biblical tithe. Yet that's all the Red Cross needs from each of us to keep it at full strength on its great job.

## Most Americans Are Covered by Group Insurance

NEW YORK—More new group life insurance was purchased in 1955 by workers in American business and industry than in any previous year.

This is shown in the preliminary estimates of 1955 purchases and ownership of life insurance which indicate that the new group plans set up for these workers in the year totaled \$9,300,000,000. This was \$2,700,000,000 more than the year before.

More than 2,400,000 workers were brought under group insurance protection by these new 1955 contracts, more than in any previous year with the single exception of 1950. Five years ago, the average size of new policies was about 40 per cent smaller than today and thus the aggregate of protection brought in 1950 was only slightly over \$8,000,000,000.

Adding the Federal Government employees brought under group life insurance with the nation's life insurance companies through special Act of Congress, the 1955 purchases of new group life insurance totaled \$11,200,000,000 and the number covered was 2,900,000.

More than half of the employed, non-agricultural work force in this country now owns group life insurance. These group-insured persons numbered an estimated 21,000,000 at the start of this year, some 20,000,000 more than were covered ten years ago.

Group life insurance in force with employee groups now exceeds \$100,000,000,000 for the first time, being estimated at \$102,000,000,000 at the start of this year.

## Animals Suffer Coronary Attacks

SAN FRANCISCO—Hardening of the arteries seems to be an affliction suffered by all the animal kingdom—at least all mammals—including such diverse species as dogs, cats, lions, tigers, elephants, birds, horses, cows, baboons, gorillas, and llamas.

This was reported by Stuart Lindsay at a recent symposium of the Society for Experimental Biology and Medicine.

The elephant was "Marge," an Indian tusker in the San Francisco zoo who died last year of a heart attack. The gorilla was "Bushman," the famous animal which died of a similar ailment.

Dr. Lindsay found that in all of the animal species the degree of hardening of arteries increases progressively with age.

The scientist also reported that in animals, as in man, hardening of the arteries begins with the degeneration of the inner lining of the arterial wall, followed by deposition of mucoid substances.

In animals, Dr. Lindsay found, fatty deposits play little or no part in the disease. In man, however, fatty deposits are important in the later stages of the disease, and contribute materially to coronary attacks.

## Ice Cream Makers Turn to Varieties

NEW BRUNSWICK—Ice cream manufacturers are borrowing a successful idea from the breakfast food people.

Particularly in the West, you can buy a large package of individually wrapped ice cream portions put up in a box about the size of a bulk half-gallon, and the idea seems to be catching on.

Another new idea, is frozen orange juice on a stick, to fool Little Charley into getting the vitamins he misses when he refuses to drink his orange juice at breakfast.

Ice milk, with a lower calorie content than ice cream, is also winning popularity in various parts of the country.

## Moving Sidewalks Take Effort From 'Walking'

WASHINGTON—Fanciful things are happening to sidewalks.

Last year an endless-belt conveyor was opened in the underground station of the Hudson and Manhattan Railroad in Jersey City, N.J. Another "moving sidewalk" was installed in the Sam Houston Coliseum in Houston. The first to span a pedestrian bridge, it can carry 15,000 people an hour from parking areas across a bayou into the auditorium. Another rolling ramp is anticipated at the Dallas airport. A similar one is being built for the Philadelphia airport to move passengers and baggage from parking lot to terminal to planes.

## Twice-Told Tale

COLUMBIA, S.C.—Mrs. James L. Yates, Jr., told police that she gave \$10 to a man who claimed to be a schoolteacher from Loris, S.C. and stranded without funds.

A few minutes later, she said, a woman approached her and began telling the same story. Mrs. Yates interrupted to say she had just heard the tale.

"Oh, he beat me to you," the woman said as she fled.

## New Flavor Cake

With Old Time Goodness

If you remember with pleasure the butterscotch delights of your childhood—candies, puddings and sauces—you'll be happy to learn about a new Instant Butterscotch Cake Mix. Sniff it in the package, savor the fragrance of the baking cake then enjoy the rich brown sugar and butter flavor that makes you think of old time goodies. Here this new butterscotch cake mix is combined with the always popular flavor of a devil's food mix. Bake it in a large tube pan and glorify it with a rich Chocolate Glaze for a very special cake.

**Butterscotch Marble Cake**  
1 package Instant Swans Down Butterscotch Cake Mix  
2 eggs, unbeaten  
1 cup water

1 package Instant Swans Down Devil's Food Mix  
2 eggs, unbeaten  
1 cup plus 2 tablespoons water

Empty butterscotch cake mix into bowl. Add 2 eggs and 1 cup water. Beat 3 minutes until smooth and creamy. In another bowl, mix the devil's food mix in the same way, using remaining eggs and water. Spoon batters alternately into a greased and floured 10-inch tube pan. With a spatula cut through the batter in a zig-zag fashion to give marbled effect. Bake in moderate oven (350°F.) 60 to 65 minutes. Allow cake to cool in pan 15 minutes; then turn out on rack to finish cooling.

Prepare Chocolate Glaze. Pour over cake and spread evenly. If additional glaze is desired on sides of cake, recipe for glaze may be doubled.

**Chocolate Glaze.** Melt 1 tablespoon butter with 1 square unsweetened chocolate. Combine in small bowl: 1/2 cup sifted confectioners' sugar, 1-1/2 tablespoons hot milk, and dash of salt. Blend in chocolate mixture gradually.

## Deep Lake

Mrs. Millie Luehr, Correspondent  
Eliot 6-4946

Perry O'Quinn's birthday, March 30 was celebrated on Easter Sunday with the family present.

Mr. and Mrs. Lemke of Chicago and Mr. and Mrs. Harry Larsen and daughter of Crooked Lake were Easter dinner guests of Mr. and Mrs. Harry Larsen, Sr.

Mr. and Mrs. Bob Weismantel and family were Easter dinner guests of Mr. and Mrs. Barney Weismantel.

Mr. and Mrs. Harold Severson and family had Easter dinner with Mr. and Mrs. Frank Luehr. In the evening they all went to the home of Mrs. Helen Severson, Petite Lake rd., for coffee.

Mr. and Mrs. Joe Galiske spent Easter in Chicago with their family.

Mrs. Lee Stollenwerk is back home from the hospital, feeling somewhat better. Her family called on her Easter Sunday. Her daughter, Kay, went back to school Monday. She attends the Illinois State Normal University.

Mr. and Mrs. Raven and family of Elmhurst and Mr. and Mrs. Mulvaney and daughter were Easter dinner guests of Mr. and Mrs. Harry Voss.

Pearl White of Chicago was a guest Monday at the home of Mr. and Mrs. Joe Galeski.

Mr. and Mrs. Victor Kaufman sold their home on Fourth avenue. Henning Johnson has opened his place for business again, after spending the winter in Florida.

Sally Groat, of Saddle Inn, will serve food on week ends.

Astrid Johnson entered Victory Memorial hospital today for surgery.

Fritz Nelson had guests from Chicago to make it a happy Easter.

**Robert C. Nelson**

HERE IS THE RECORD

**Robert C. Nelson**

has an outstanding record of five years as State's Attorney—a Prosecutor, NOT a Persecutor—

**THE INNOCENT ARE PROTECTED—**

**HERE IS WHAT HAPPENED TO THE GUILTY:**

23 sent to prison for murder, manslaughter, and assault with intent to commit murder.  
9 convictions for reckless homicide  
30 convictions for grand larceny.  
62 convictions for burglary.  
39 convictions for robbery.  
38 convictions for other felonies.

**Robert C. Nelson**

has been active and aggressive in preventing syndicate crime from invading Lake County. Has taken horse meat from your dinner tables and has sent the ringleader to the penitentiary. Has encouraged a positive approach to the juvenile problems of today and advocates that credit be given to the GOOD youths and less publicity be given to the offending youth. Has assisted in the reduction of juvenile offenses by bringing offending parents to the bar of justice where they have contributed to the delinquency of their own children.

Has, except for absence from the state on one occasion, attended every session of the Lake County Grand Jury during his tenure of office. Has furthered the high degree of cooperation between the law enforcement agencies by conducting lecture courses for peace officers and by working closely with them in "on-the-scene" investigations.

The administration of **Robert C. Nelson** in 1955 alone reflects the following:

53 convictions for felonies.  
Over 600 opinions to County Officials.  
Over 7,000 office interviews with citizens of Lake County.  
Over 200 meetings of the County Board and its Committees attended in an advisory capacity.  
Over 200 resolutions of the County Board and Committees drawn and approved.  
Over 2,000 tax delinquent real estate parcels returned to the current tax rolls.  
\$250,000.00 collected for Lake County taxing bodies on delinquent real estate taxes.

**181 Criminal Informations filed and argued in the County Court and only one "not guilty."**

525 petitions in County Court filed and heard regarding children and mentally incompetent persons.

Over \$9,500.00 collected from State's Attorney's fees.

\$15,000.00 collected for relief of dependent children in Lake County from delinquent parents.

Over 500 tax objections heard and settled. Legal advisor to Building and Plat Committees on all subdivisions and real estate developments.

### The Farm Surplus No One Expected

The 1955 crop of popcorn, although considerably below the 10-year average, still produced a surplus which has created a headache for growers, processors and the entire industry. Surpluses accumulated during past years have brought demands for higher sanitary standards for storage, processing and manufacturing of popcorn by the Pure Food and Drug Administration.

The Popcorn Processors Association is closely cooperating with FDA to insure that only popcorn grown and produced under the highest sanitary conditions is used for human consumption. Processors throughout the nation are spending many hundreds of thousands of dollars rebuilding and replacing popcorn processing and storage facilities with installations that are completely insect and rodent proof.

The new sanitation program of the industry is requiring abandonment of practices observed for centuries. It is no longer permissible for popcorn processors to purchase corn that has been stored on the farm unless the popcorn has been stored in facilities completely protected from any possible insect or rodent contamination.

William E. Smith of the Sanitation committee has alerted prospective growers that any fields planted to popcorn must be located a safe distance away from barns, cribs or storage piles so as to avoid any possible field contamination. To insure a market for the commodity, popcorn growers should be certain that either their storage facilities meet the necessary sanitary requirements of FDA or that they are assured of delivery to the ultimate buyer direct from the field.

The new program being embarked upon by popcorn processors and growers will assure American consumers the finest and purest popcorn ever produced in the history of the nation.

VOTE RIGHT WITH WRIGHT

### She Reduced!

CHICAGO, Illinois — Several weeks ago, Pat Lee, 21, walked hopefully into an airline office looking for a job as airline hostess. "Sorry," said the personnel officer, "You weigh too much."

Pat weighed 168 pounds! A recent graduate of Northwestern U., she had planned for years on a hostess career. But Pat was not discouraged.

Although all her reducing diets had failed, she found a new one that contains all the vitamins—but expands in the stomach and satisfies hunger without adding calories. In about 12 weeks, she was down to 128 pounds, and her curves—mm-mm-mm.

By this time she had come to the attention of the State Pharmacal Company, who make the product that helped her reduce—it's called "All-In-One" and comes in capsules. Currently she's through with airlines and has become "Miss All-In-One", representing her boss all over the country on radio and TV.

### Skokie Man Will Head Medical Society Public Relation Section

Edward A. Uzemack of Skokie has been named public relations director and assistant secretary of the Illinois State Medical society, it was announced today by Dr. Harold M. Camp, Monmouth, secretary of the society.

Mr. Uzemack for the last three years has been executive assistant in

the public relations department of the American Medical Association. He was assigned as a traveling aide to the presidents of the A.M.A., coordinating their speaking engagements and handling their press, radio and television activities.

Prior to joining the A. M. A. in 1953, he worked for two years as a public information officer for the Chicago region of the Office of Price Stabilization. In the preceding 14 years, he was a reporter and rewrite man for the Chicago Times

and Chicago Sun-Times. He served in the Army in Europe during World War II.

A native of Chicago and 40 years old, he received his journalism training at Northwestern University. He lives at 8046 Kenneth avenue, Skokie, with his wife, Eleanor, and their three children, Noel, Edward and Bonnie.

Mr. Uzemack will be located in the society's Chicago office, 185 N. Wabash ave. He assumed his position April 1.

## Millburn

Mrs. Corena Edwards, Correspondent  
Phone Eliot 6-3323

Regular services at Millburn Congregational church April 8 include Sunday School at 9:30 a. m.; first church service at 9:30 a. m., and the second service at 11 a. m. The members of Pilgrim Fellowship are invited to a County Rally to be held at the Grayslake church next Sunday afternoon from 3:30 to 8:30 p. m. Reservations must be in by Friday.

Seventy-eight persons attended the Easter sunrise service at 5:30 a. m. followed by breakfast at 6:00 a. m. There was a large attendance at both the services at 9:30 and 11.

Maudy Thursday church services were well attended. Eight new members were received into the church and one baptism during the communion service.

The April committee of the Ladies Aid will serve a cafeteria dinner in the church dining room Thursday, April 5 at noon. All members and friends are urged to be present at the monthly meeting to be held in the church at 2 o'clock Thursday afternoon. A very interesting program has been planned by the program committee. Visitors are always welcome.

Mr. and Mrs. Robert Denman and family, Mr. and Mrs. Kenneth Denman and sons, Mr. and Mrs. Milton Bauman and daughter, Mr. and Mrs. Frank DeYoung were Sunday dinner guests at the Earl Kane home at Mundelein.

Mrs. Arlene Bonner and daughter were Sunday dinner guests at her sister's home, Mr. and Mrs. Leo Stanczak of Waukegan.

Mrs. Clifford Weber and children of Winthrop Harbor were callers at the C. P. Weber and Frank Hauser homes Friday.

The Study Group will meet

Thursday, April 12, at the home of Mrs. John Bloom of Druce's Lake. The meeting is from 9 to 11 a. m. Anyone is welcome to join the group.

The Past Matrons club of Millburn chapter O. E. S. is sponsoring a Holbrook supper at the Masonic temple Thursday, April 5 (today) at 8:30 p. m.

Miss Marian Edwards of Libertyville was a supper guest at the home of her parents, Mr. and Mrs. Frank Edwards, Tuesday.

Mr. and Mrs. Rudy Staniger and daughter of Brookfield spent Sunday with Mr. and Mrs. Joseph Strohal.

Mr. and Mrs. Clarence Hauser of Paris Corners were callers at the Frank Hauser home Sunday afternoon.

Mr. and Mrs. Vernon Stahnke and daughter of Arlington spent Sunday at the Leslie Bonner home.

Ronnie Susan, and Lynn Edwards of Libertyville spent Thursday with their grandparents, Mr. and Mrs. Frank Edwards.

Miss Sharon Weber of National

College of Education at Evanston is spending her Easter vacation with her parents, Mr. and Mrs. C. P. Weber.

Mr. and Mrs. Charles Lucas attended the Dog Show at the Chicago stock yards Sunday.

Mr. and Mrs. Herbert Graham and family spent the week-end with the Eugene Graham family of Spooner, Wis., and the Clifford Moore family at Sampson, Wis.

A Mother and Daughter banquet sponsored by the Men's club will be held at the Millburn church Wednesday evening, April 18.

Wilbur Bennett of Union Grove was a caller at the Edward Hoffman home Monday afternoon.

Mr. and Mrs. James Bonner and family of Kansasville, Wis., spent Sunday afternoon at the Harley Clark home.

Mrs. James Cunningham was hostess at a 1:30 dessert luncheon at her home last Tuesday. Guests were Mesdames Don Holem, Emmet King, Charles Lucas, Frank Edwards, Her-

bert Messner, Ray Laursen and Carl Anderson.

Mrs. Howell Kenimer of Antioch was a caller at the Herbert Messner home Monday afternoon.

Dedication services were held Sat-

urday evening for the Millburn Masonic Temple. The Grand Lodge officers conducted the ceremonies. Nearly 200 persons were entertained after the service at a dinner provided by the officers and their

wives. Sixty Grand Lodge officers and their wives were entertained at a three o'clock luncheon at the home of Phil Anderson, and he also held open house at his home after all the ceremonies.

## OUT ON A LIMB

By Stumpy McCulloch

Seems to me that an Old Timer is a fellow who remembers when history was made at half the price it costs today.

Sitting on the back porch the other night, watching the sun drop behind the green trees on the hill, I got so I was havin' a runnin' battle with the flies and mosquitoes something terrible. Between rounds I got to thinkin' how insects are the greatest enemy of our forests. Control of tree-killing insects and bugs is a problem for scientists and foresters, but I got to considering how we can help by cleanin' out over-crowded stands and harvestin' timber before it gets over ripe. And everytime I clipped a mosquito I could almost imagine a tree doin' the same in the forest on the hillside.

John Cacioppo, a popular Texas distributor of lumbering supplies, writes that a Texas pedestrian is a guy who walks to the garage for his car.

Got involved in talking about families a while back with some fellows who said they were amazed that a shorty like me could have such a nice bunch around the house. I told them my first name was Stumpy just cause I was small—not cause I wasn't no good.

Then I reminded him that in the forest, just like in many other places, good things come in little packages. The smaller the stump, the less good wood is wasted, for that much more board feet have gone into lumber or pulp.

He has to agree with me. Stumping a forest low to the ground is the best. An' that's why I'm proud of my first name. It's a pretty good sign of fine forestry.

Women know they've reached middle age when their shoes pinch them more than the men do.

We get flash storms where I live. Whenever they spring up I like to sit next to the window and watch the lightning scurry across the heavens. I don't worry too much about lightning causing forest fires. People cause more fires than lightning and we can do something about that. It might be if we'd make people see it's more fun to play with a whole tree than just a match we'd have less worry.

And if we had no trees we'd have no row boats. Without boats people could never catch those bigmouth bass up Maine way. Talkin' about fishin' reminds me of the time I saw a sign in a farmer's fish pond which said, "NO FISHING: Survivors will be prosecuted."

## Tips on Traffic Safety

By CHARLES F. CARPENTIER  
Secretary of State

Some Illinois motorists are unaware of their duties should they become involved in an accident. A driver or passenger of another vehicle involved in an accident must be given reasonable assistance, including the carrying, or the making of arrangements for the carrying of any injured to a physician or hospital for treatment. This should be done if it is apparent that such treatment is necessary, or if the injured person requests such assistance. (Section 38, Uniform Act Regulating Traffic.)

The driver of a vehicle involved in an accident in this state must report that accident within ten days to the Division of Highways if any person was injured or killed in the accident, or if the accident resulted in the damage of property to any person, including himself, in excess of \$100. (Section 41, Uniform Act Regulating Traffic.)

Also it is the obligation of a motorist whose vehicle strikes an unattended vehicle to immediately stop and attempt to locate and notify the owner of the other vehicle of the offending motorist's name and address. If the owner or operator is not to be found, the motorist should leave in a "conspicuous" place in the vehicle struck a written notice of his name and address and the circumstances of the accident. (Section 39, Uniform Act Regulating Traffic.)

A copy of the completely new "Rules of the Road" booklet will be sent to you free upon request. Write to CHARLES F. CARPENTIER, Secretary of State, Springfield, Illinois.

## Premier Bowl Of Bean Soup

To Mrs. William G. Stratton

Mrs. William G. Stratton, wife of Illinois' governor, was served the first bowl of bean soup at the opening of the new State Office Building cafeteria in Springfield, Ill. Charles F. Carpenter, Secretary of State, donned chef's attire and acted as waiter for the occasion.

The new office building, built for \$11,500,000, houses agencies formerly scattered in 19 Springfield locations, for which the state paid \$400,000 annual rents.

Manager of the cafeteria is Nationwide Food Service, Inc., which also manages the U. S. Senate restaurant in the Capitol bldg., Washington, D.C. The same recipe used for the famous bean soup in the U.S. Senate restaurant is used in the new Illinois statehouse bldg.

Nationwide is the country's largest caterer to commercial, industrial and governmental institutions.

Drivers should prepare for turns about two or three hundred feet before arriving at an intersection. Make sure your car is in the proper lane for your turn before you get to the corner. You should also signal your intention to turn at least 100 feet before arriving at the intersection where the turn will take place.

Salt poisoning in swine usually follows access to excessive amounts

of salt combined with a limited supply of water, according to an article in the February issue of Successful Farming magazine. Early symptoms include severe itching, constipation, and thirst.

SERVING LAKE & KENOSHA COUNTIES FOR 11 YEARS

## Presenting . . . . .

## Candidates For the High School Board

Nine candidates have filed petitions as candidates for member of the Antioch Township High School board of education in the coming election to be held Saturday, April 14. Two candidates have withdrawn their petitions.

Because of the high interest in the high school program, and especially in the coming election, we have asked all candidates to furnish information concerning themselves and their reasons for wishing to serve on the board.

Antioch high school district has grown to a great extent during the past few years, and many of the candidates may not be well-known to residents. For these reasons a brief biography of each candidate will be presented in this column before the election. Two are included in this week's issue.

## John F. Romer

Mr. Romer is 46, married and has two children. He resides on Route 59 in Lake Villa where he has made his home for the past 4½ years. His oldest daughter Judith graduated from Antioch Township High School in June 1955. The youngest daughter Susan plans to enter Antioch Township High School this fall.

Mr. Romer is in the Insurance business and is state agent for the Hanover Fire Insurance Group. He graduated from New Trier High School in Winnetka, Ill., attended Purdue University and Lewis Institute. He is past president of the Lake Villa P. T. A. and is a member of the board of the Lake Villa Community Methodist church.

## Platform:

1. Cooperate with the Administrator in the promotion of good relationship with staff members.
2. Plan for the future both in high standards of education and physical facilities to meet the growth of our community.
3. Act in the best interests of the students as well as those of the people of the school district.
4. Promote and create an active interest by the people of the district by keeping them informed.

## Carl M. Larson

Carl M. Larson, 40, is a resident of Lake Villa township, residing in Lindenhurst Estates, where he has lived with his family for the past two years. He is the father of a daughter, age 9.

Larson graduated from Proviso High School in 1933, and has since received a B. S. degree from the University of Illinois; a Master's Degree of Business Administration from Northwestern University, and is currently completing work on a Ph. D. degree in Economics at Northwestern.

He has been decorated with the Bronze Star Medal and Combat Infantryman medals, awarded for extensive combat duty, while in military service. He served with the 351st Infantry, 88th Division from July 1941 until January, 1945, as a Warrant Officer.

Larson is presently employed as an instructor of Economics, Marketing and Statistics, by the University of Illinois, College of Commerce, Chicago Undergraduate Division. He will complete his tenth year of teaching this spring.

He has been active in civic affairs at Lake Villa since moving there and is a director of the Lake Villa Men's Club.

He did not state any particular aims if elected to the board of education, saying instead that if elected he would perform the function of a board member to the best of his ability.

## U. S. Fleet a Self-Sustaining Unit

What makes the United States Navy the strongest mobile force in the world? There are many answers involved to this question, but one of the most important one is its ability to be a self-sustaining unit. By that statement Chief Long, recruiter in charge of the Navy Recruiting Station in Waukegan points out that due to the tremendous organization of the Navy's Logistic Department, ships of the U. S. Fleet assigned throughout the world are independent of other countries for supplies of food, ammunition, fuel and general supplies. This feat is accomplished by deployment of Refrigeration ships, Ammunition ships, Oil tankers and Supply ships on regularly assigned missions to take care of the fleet no matter where it may be.

Chief Long went on to say that by supplying our Navy with the necessary commodities with products which are manufactured and produced by America, not only results in considerable savings to the American people if these items had to be procured on the foreign market, but also serves as a continual training program for the men of the Fleet. During time of war, the "life-line" of a fleet is its ability to have a mobile replenishment program. This processing of transferring supplies and fuel from one ship to another requires precision-like teamwork between the crews of each ship.

In carrying out this important process of "replenishment," the Navy rating of storekeeper plays an important role. His is the job of ordering supplies and processing the requisitions by which all materials are ordered. Chief Long invites all young men interested in the field of accounting or supply to visit the Navy Recruiting Station located in the Federal Office Building here in Waukegan at 325 Washington Street. The phone number is DElta 6-8440.

## Returns to Norfolk, Va.

Walter G. Kenimer, seaman, USN, son of Mr. and Mrs. H. H. Kenimer of Route 2, Box 459, Antioch, Ill., and husband of the former Miss Joanne F. Headington of Lebanon, Ind., is scheduled to return to Norfolk, Va., March 30 aboard the Atlantic Fleet heavy cruiser USS Des Moines after completing exercises with operation Springboard in the Caribbean.

The Des Moines conducted competitive gunnery, operations and engineering exercises.

Ports of call included San Juan, P. R., and Fort Lauderdale, Fla.

The Chicago Motor club reports that over 25,000 communities in the United States depend entirely upon highways for transportation. The motor club urges everyone to support the American Automobile Association's Program for Better Highways to help these communities get better roads.

Tired of Unsightly  
Walls? Plastr-Tone  
Is Answer

When paint isn't the answer Plastr-Tone is. While ordinary paint accentuates cracks and ugly breaks in walls, Plastr-Tone hides and effectively camouflages those unsightly blemishes, because only Plastr-Tone imparts a new textured surface while you re-color your favorite rooms.

Plastr-Tone is that new, simple-to-apply miracle product which actually plasters as you paint. You roll it on, or brush it. Handle it like paint but just watch it re-surface, repair and re-color all in one operation. Comes in fifteen ready-mixed colors and white. Perfect for every room in the house, it can be applied by anyone. It's so durable, and economical, too.

Plastr-Tone can be  
purchased atAntioch Lumber  
& Coal Co.315 Depot St. - Antioch, Illinois

## The speed of the modern ELECTRIC ranges!

25% faster than 5 years ago—

## today—nothing cooks faster!

New French-door Oven is one of the "new idea" features offered by Frigidaire. Bottom shelf rolls out automatically when French doors open.

Today we're surrounded with all manner of wonders from our great electrical engineering laboratories. Color TV, Radar, High Fidelity phonographs.

Yet perhaps one of the most useful advances has taken place right in the kitchen. New designs and new ideas have made today's electric ranges 25% faster than 5 years ago.

The new instant-heat surface units, for example, give you a jet-like surge of heat as soon as you turn one on. And newly perfected oven and broiler units give you the fastest preheating and broiling you've ever experienced.

If you are considering building or buying a home, or even remodeling your kitchen, see the new electric ranges. They come in a wide variety of decorator colors. And when you cook with an electric range your kitchen will be cleaner, cooler and more comfortable.

And, you'll find more of the exciting "new-idea" features in electric ranges than in any other kind. Learn how little it costs to own a new automatic electric range from dealers near you.

## Big Saving—We Pay Part of Your Range Installation Cost!

Need new wiring to install your electric range? We share the cost with qualified home owners in 1, 2 and 3-family dwellings. This can cut your expense by about half.

And you get more than a money saving!

The modern wiring that goes with your installation helps improve your TV picture, brightens lights, makes everything electrical work better. You can also install a 240-volt electric dryer, water heater or air conditioner quickly and cheaply. The Share-the-Cost Plan is available on terms of up to 2 years.
